GAMES' DYNAMICS

Rural Voices

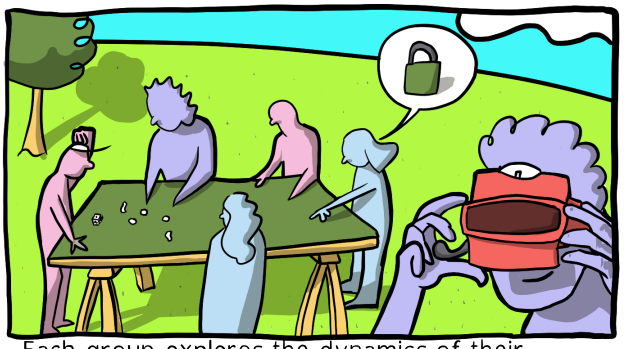

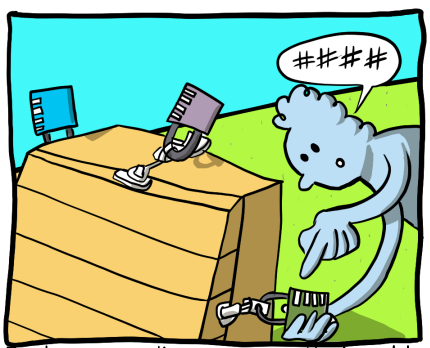

Welcome everybody.

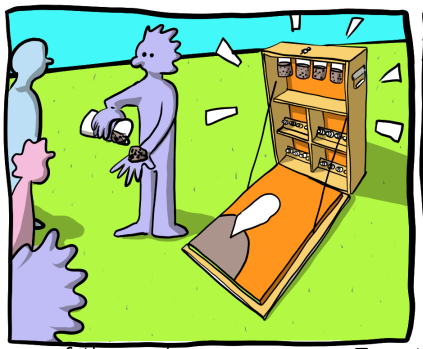

Divide into 3 groups, one for each table.

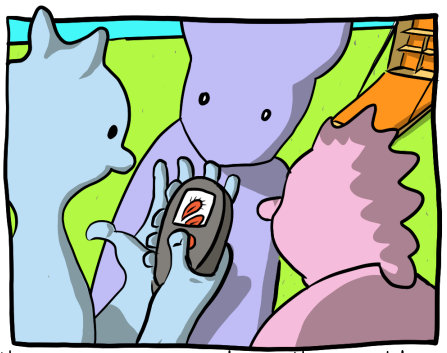

Each group explores the dynamics of their table's theme: sharing and discussing the topics.

Each group discovers on their table one of the codes needed to open one of the locks on the seed box.

Together, everyone explores the seed box and shares their discoveries from the tables.

Rural Voices Games' Dynamics

The three padlocks of the seed box (optional)

The games are **completely optional** and can be used as a way to **connect the three thematic tables.**
At the center of the experience is a **"seed box"** that is locked with **three padlocks**, each corresponding to one of the tables.
To open the box, participants need to **discover the code for each padlock** by solving a riddle available on each table.

Climate Change Table → Code: **2030**
Soil Protection Table → Code: **0512**
Gender Equality Table → Code: **2026**

Important: Make sure the padlocks are set with the correct codes in advance.
These games are designed as an integral part of the panels. They can be played or simply explored, as they always provide useful information and prompts for discussion.
The panels can also be used as working tables for other activities.

Climate Change Table

Game 1 – Are You an Eco Leader?
Materials: paper and pen
Participants answer a series of questions and collect points. The final score reveals their profile.
This is a playful way to reflect on everyday environmental habits.

Game 2 – Just One Suitcase
A conversation trigger where participants must decide what they would take if they only had 5 minutes to pack.
QR codes provide access to stories related to the theme, enriching the discussion.

Soil Protection Table

Game 1 – "Protect the Soil, Protect Our Future" (Board Game)
Materials: dice and tokens
A board game format that encourages discussion about the main threats to soil protection and actions within everyone's reach.

Game 2 – Soil Champions
A decision tree activity leading to different profiles.
It works as a conversation starter, allowing participants to compare choices and perspectives.

Gender Equality Table

Game 1 – The Tree of Life
Materials: post-its and pens
A collective conversation tool where participants map key factors to reflect on their territories and experiences.

Game 2 – Level the Playing Field
Materials: dice and tokens
A board game that explores challenges to gender equality and practical actions for change, encouraging group discussion.

List of Elements per Rural Voices Kit

THE SEED BOX

1 Seed Box, including:

5 soil jars displaying different types and conditions of earth (e.g. dried soil, plastic-contaminated soil, debris-filled soil, sand, clay, or healthy soil ready for cultivation).

Note: These jars are flexible and can be adapted to showcase other materials or objects depending on your goals and how you choose to use the Seed Box.

Seeds & Observation Tools

16 sample tubes for seeds, organised by season. The selection and provision of seeds are the responsibility of each partner, who has identified and chosen the varieties according to their own context, objectives, and local relevance.

1 View-Master + 1 reel

1 magnifying glass

Exhibition & Table Setup

3 tabletops, which also function as **exhibition panels**

Can be placed on trestles or appropriate supports

3 printed canvas covers

Note: These were designed to replace the original tablecloths, which did not provide sufficient print definition and would become easily stained with use.

The canvas covers are cut to match the exact dimensions of the panels. As a result, their measurements differ from the original tablecloths, which included additional fabric for draping and folds.

Supporting Documentation

1 Activity Manual (PDF, in English)

This manual includes a range of **suggested activities** (as inspiration rather than fixed instructions).

We encourage you to:

Document the activities you develop

Share them with others

Build a collective archive of practices

Ideally, this documentation should follow the **template provided in the activity guide**, to ensure consistency.

Optional: The manual text can also be provided in an editable format (e.g. Word), if you wish to adapt or reuse the content.
